

# Download File PDF Cpcs Answers To Articulated Dump Truck Test

#Jenny

Finally I get this ebook, thanks for all these I can get now!

#Rio

Cool! I'am really happy

#Markus Jensen

I did not think that this would work, my best friend showed me this website, and it does! I get my most wanted eBook

#Hun Tsu

wtf this great ebook for free?!

#Che Salsa

My friends are so mad that they do not know how I have all the high quality ebook which they do not!

#Diego Butler

so many fake sites. this is the first one which worked! Many thanks

## CPCS Theory Test Answers A56 Dump Truck – Articulated Chassis

No.	Question & Answer
1	a) Give ONE advantage and b) TWO disadvantages of rear-mounted cameras. a) Allows the operator to see directly behind the machine b) 1. The camera has a limited view 2. The view can be blinded by the sunlight
2	What is the purpose of a ROPS cab? The purpose of ROPS is to provide protection in the eventuality of a rollover with the machine.
3	Give TWO reasons why the dump truck operator should have an understanding of the type of spoil being transported. 1. It can affect the way it is being transported (ie. Roll or send fluid material) 2. It can overheat the tyres if the material is dense 3. The load can stick to the body when tipping 4. It may get spilled during transportation 5. It may need to be tipped at a different location
4	a) State the purpose of a retarder and b) The possible consequences of not using it when required. a) The retarder is a device that provides a partial braking effect on steep slopes b) If it is not used then normal brakes have to be used which can cause the load to slip on steep slopes leading to loss of control
5	Whenever possible, who should decide the positioning of the dump truck for loading?
