Social Studies: Innovative Approaches for Teachers

## The Principles of Differentiation

- ▶ All students can succeed.
- ▶ Universal design (for effective teaching) and differentiated instruction are effective and interconnected means of meeting the learning or productivity needs of any group of students.
- ▶ Successful instructional practices are founded on evidence-based research, tempered by experience.
- ▶ Classroom teachers are the key educators for a student's literacy and numeracy development.
- ▶ Each child has his or her own unique patterns of learning.
- ▶ Classroom teachers need the support of the larger community to create a learning environment that supports students with special education needs.
- ▶ Fairness is not sameness.
